Michigan Bell Asking for Rate Increase In This Area

The Michigan Bell Telephone Company has asked for a general rate increase throughout its territory which would boost charges for residence service an average of less than 2 cents a day in East Jordan.

In its application with the Public Service Commission at Lansing, the company also asked that individual-line business service rates here be raised about 4 cents a day.

Th company asked for no increase in long-distance rates.

Under the proposed schedules, monthly rates in East Jordan would be increased as follows:

RESIDENCE SERVICE

	Present	Proposed
Individual	$3.25	$3.90
Two-party	3.00	3.45
Four-party	2.50	3.00
Rural	3.00	3.25

BUSINESS SERVICE

Individual	$6.25	$7.50
Two-party	5.25	6.25
Rural	4.25	4.75

C. L. Johnson, manager here for Michigan Bell, termed the proposed rate increase "essential if we are to continue to maintain a high-quality service." He emphasized that "even with the proposed increase, telephone service still would be a bargain."

Pointing up the company's progress in expanding and improving telephone service here, Johnson said that East Jordan customers can now call over 3,100 telephones on a local call basis, compared with 350 in 1946.

"This increase in the number of telephones subscribers can reach on a local basis has been dure largely to the inauguration of extended-area service— a service of particular benefit to rural users because it provides toll-free access to their trading centers.

"Between 1946 and 1952, Michigan Bell spent $20,000,000 to expand and improve service in rural areas. As a result of that huge expenditure we have added more than 97,000 rural telephones, reduced the number of lines with more than eight stations from 44 percent to 7 percent, reduced the number of rings heard by rural users, converted 12,000 "crank-type" magneto instruments to dial or "lift-the-receiver" type operation, inaugurated extended-area service in about 200 exchanges, and are now serving about 76 telephones per 100 rural establishments compared with approximately 60 in 1946. In addition, dial service has been inaugurated in scores of exchanges, including East Jordan."

Johnson cited an increase of 90 percent in the overall cost of living since 1940 in contrast with an increase of only 27 percent in revenues from Michigan Bell rate increases.

He said that "if the price of other products had gone up no more than that of Michigan Bell service, coffee today could be bought for only 27 cents a pound and the lowest-priced popular automobile for less than $1,000.

One substantial element of our costs is our wage bill. General wage increases, alone, have amounted to $1.50 for every $1 of rate increases in the same period. During that period wage costs per telephone per month have jumped from $1.54 to $3.39. Further, taxes paid by the company per telephone have increased from 82 cents to $1.26 a month.

"In total, costs per telephone per month are now $6.45, as against $3.86 in 1940.

"As a result of this lag in the price of our service behind the increased costs of providing it, our earnings are about a third of the rate of earnings of outside industry during a period when business activity has been at an all-time high."

June Current Pop. Survey to Include Korean Veterans

Supplementary questions designed to obtain some measure of the impact of the Korean conflict on various types of workers will be asked in the June Current Population Survey, according to District Supervisor, Mr. Donald P. Watkins, of the Bureau of the Census field office at Boyne City, Michigan.

The supplementary questions will develop information on the number of men who have seen military service since July 1, 1950, and whether or not these men worked for pay or profit or did unpaid work on a family farm or in a family business during the 12-month period prior to entering the service. The survey will reveal also what kind of a job the veterans worked at longest in the year prior to entering service.

The supplementary questions are in addition to the regular inquiries on employment and unemployment which are asked each month in the Current Population Survey which is conducted on a sample basis locally and in 67 other areas throughout the country.

Special Meeting of Charlevoix County Board of Education

The Charlevoix Board of Education held a special meeting on June 9th. They appointed Mr. A. F. Cook as Superintendent of Schools to fill the vacancy created by the resignation of Mrs. Catherina C. Bergeon. For the past three years Mr. Cook has been Superintendent at the Boyne Falls Schools.

Vacation Season is Here; Just Ask These Girls

Jill Ostrander, granddaughter of Mr. and Mrs. Clyde Hipp, and six of her girl friends; Lois White, Jeanne Marks, Sally Tibbets, Shirley Colby, Donna Geelhold and Phyllis Klan of Lowell, Michigan, came up Thursday, June 4, in a jeep with trailer. The girls reported running into a hail storm on their way up.

The girls had the time of their lives roughing it over the week end in Jack Ostranders cabin at LaLonde's Point. They are sleeping and cooking outdoors, spending their time boating, swimming and just having fun. They plan on returning home Sunday.

The girls attended the graduation exercises here, and were bemoaning the fact they haven't had a good meal in three days.

They have been visiting the 18 girls, who are staying at Messmires at Charlevoix, also from Lowell.

WHEAT ALLOTMENT FOR NEW FARMS

Farmers on land which no wheat was seeded for any of the years 1951, 1952 and 1953 may apply for a 1954 wheat acreage allotment, according to LeRoy Hardy, Chairman of the Charlevoix County Production and Marketing Administration Committee. To be considered for an allotment on a farm which had no wheat seeded for any of those years, the farmer must apply in writing to his county committee by June 18, 1953.

Blank application forms are available at the county PMA office for use in filing requests for allotments.

March is the month you can be ruined by untold wealth.

Mrs. James McLaughlin announces the marriage of her son, Edward, to Miss Cleo Lampal of Saginaw, June 6th. The couple are on a 10-day honeymoon in northern Michigan and Canada. Their home address will be 17297 West Outer Drive, Dearborn, Mich.

Community Chest Sponsors Girl's Recreation Camp

Summer recreation plans tentatively call for a three day Summer Recreation Camp for Girls to be held either the last week of July or 1st week of August according to an announcement by Gayle Saxton, local recreational director, early this week.

A camping site is already available and the local Community Chest and Coach Saxton are scouting around in an attempt to line up some local women's organization or organizations that may be interested in helping promote and supervise such a project.

Any organization that feels that it would be willing to assist in the promotion of such a worthwhile project are asked to contact either Mrs. John Porter. President of the East Jordan Community Chest, or Coach Saxton.

Softball promises to be one of the major attractions in East Jordan's recreational program this summer with local softballers participating in two organized leagues.

The East Jordan Iron Works, East Jordan Coop., American Legion, and East Jordan Canning Company will field in the Rainbow City League, made up entirely of local teams.

The Foundry and East Jordan "Canners" will compete in the newly organized Tri-City League along with Ellsworth and three Charlevoix teams; Cadillac-Olds, Friedman's, and theUnited States Coast Guard. Dean Davenport, Charlevoix mayor, is head of the Tri-City League and will act as the league's commissioner.

Marjorie Murray Married to Richard Becker

Miss Marjorie P. Murray, daughter of Mr. and Mrs. Richard Murray of East Jordan, became the bride of Richard N. Becker Saturday evening at the Evangelical Lutheran Church. Parents of the groom are Mr. and Mrs. Nichols Becker of Midland.

Rev. Phillip A. Fretheim performed the double ring ceremony. Traditional wedding music was played by Mr. Fred Stecker, organist.

Decorating the church for the occasion were altar baskets of mixed flowers and candelabra.

The bride wore a navy blue gabardine suit with white accessories and a corsage of red roses.

The bridesmaid, Anna Murray, sister of the bride, chose a teal blue gabardine suit with white accessories and a corsage of red roses.

Robert Murray, brother of the bride assisted the groom as best man.

For the occasion the bride's mother wore a dress of navy blue taffeta with white accessories. The bridegroom's mother was attired in a print crepe dress with white accessories.

Following the ceremony a reception was given by the bride's parents at the Rock Elm Grange Hall. The bride's table was centered with a three tiered wedding cake topped with a miniature bride and groom, which was served with ice cream and coffee. Mrs. Alice Murray and Mrs. Alice Sommerville cut the cake.

The bride is a graduate of the East Jordan High School Class of '53. The groom is employed at Dow Chemical in Midland.

The couple will make their home at 1508 West Carpenter St., Midland, Mich.

Guests last week at the Wm. Zoulek home and attended graduation were:—Mrs. Jack Harding of Flint, Mrs. Gerald Ager and children of Detroit, Mr. and Mrs. Fay Sonnabend and boys of Midland, Tom Edwards and Roger Ranasen of Grayling.

VACATION LAMENT

Little bankroll, ere we part,
Let me press you to my heart.
All the year I've clung to you,
I've been faithful, you've been true.
Little bankroll, is a day,
You and I will start away,
To a good vacation spot,
I'll come back, but you will not.

Lona Theatre Programs To Appear in Herald

The Lona Theatre, Mancelona, newest and largest theatre in Antrim County, started last week publishing its weekly program in the Herald, and will continue to do so the balance of the summer. Mr. Guthrey, the manager, stated he is doing this for the convenience of those who had repeatedly asked him for his weekly programs from this area.

The Lona Theatre, built a little over a year ago, boasts the best in screen and projection equipment in this area, comfortable seats, has the largest seating capacity of any theatre in Antrim County, and is equipped with a "cry room" for the convenience of mothers with babies where they may sit, hear and see the show without bothering the rest of the audience.

Local Blood Procurement Program Here July 1st; Local Chairman is Mrs. Theodore Malpass, Sr.

Initial plans for the annual Blood Procurement program to be held in Charlevoix county June 29-30 and July 1 have been announced by Mrs. R. G. Bennett, blood chairman for the Charlevoix county Red Cross chapter, following a meeting with Miss Iva Allen, field representatives for blood procurement for the Michigan Department of Health.

The quota for the annual three-day program has been set at 260 pints with 130 pints going to the armed forces and the remainder for county needs, Mrs. Bennett said.

The Health Department mobile unit will be in East Jordan July 1 with Mrs. Theodore Malpass, Sr., serving as local chairman. The unit will be in Charlevoix June 29 and in Boyne City June 30.

Purpose of the procurement in this county is to collect whole blood for the armed services and plasma and important blood derivatives to meet the needs of Charlevoix county. As a result of the program, Charlevoix county residents receive not only blood plasma but immune serum globulin, more familiarly known as gamma globulin for use in modification of measles, infectious hepatitis and polio; antihemophilic globulin for the control of bleeding in hemophiliacs or "bleeders"; normal serum albumin for treatment of kidney and liver diseases; and packed red cells for treatment of anemia, certain blood diseases or carbon monoxide poisoning.

For the first time local doctors will serve with the clinics and will be assisted by Health Department technicians and nurses supplemented by local volunteer nurses.

In Charlevoix county where only 99 pints of blood were obtained in 1952, there is a deficit of 80 pints which must be repaid to the Health Department following this year's clinic.

The role of the Red Cross in the clinic is to serve as a local clearing house for all of the details associated with the Michigan Plasma program such as enlisting the cooperation of other groups in the community; coordination of the activities of local participating groups; recruiting donors and obtaining volunteer clerical and canteen workers as well as financing the costs of the canteens during the clinics.

East Jordan Tourist Park

We have all been watching the progress the Park Commission has been making on the Trailer Park. The work they have done is a real tribute to the looks of this city.

They have cleared the brush out, graded and hauled in sand to fill up the holes.

Mr. Reno, the caretaker, has done some much needed pruning and cleaning around the buildings, beach and play area.

The Park Commission has bought a new rotary lawn mower and a new Easy washing machine which the people at the Park appreciate very much.

The kitchen and large recreation hall are available and spotless. The men have gone over the logs on the inside with cedar oil. There are also rumors that the bath and laundry room will be painted red. (That was a rumor.)

As it is still quite early for tourists, we are glad to see the trailers that have stopped to spend some time here. The following are at home on wheels:

Mr. and Mrs. B. H. Putman of Sparta. They have been coming here for some time to spend their summer's with friends in the Park.

Mr. and Mrs. W. D. Koontz of Detroit have their trailer parked here and are coming up to spend week ends until their vacation.

Mr. and Mrs. Keith Winkel of Pigeon, Mich. Mr. Winkel works on the line for Superior Electric.

Mr. and Mrs. Carl Hill of Tacoma, Wash., are doing some fishing in Lake Charlevoix; so far their luck has been good.

Mr. and Mrs. Harry Beuker of Traverse City came into the Park Tuesday. Mr. Beuker is Dr. Beuker's son.

Mr. and Mrs. Charles Voss of Lima, Ohio, are going to be here awhile.

Mr. and Mrs. Jesse Robinson have their trailer here. Mr. Robinson left for Flint after he received word from his wife that she was all right after the tornado.

There has been two family reunions already held here; one was the Jollif's and the other was the W. DeYoungs.

Mr. and Mrs. George Kaake had a weiner roast with the following friends and relatives: Mr. and Mrs. Reno and daughter, Ione Detloff, of East Jordan; Mr. and Mrs. Tom Andrews and children and Mrs. Julia Lambert of Hammond, Ind.; and Darlene McRoberts of East Jordan. A grand time was had by everyone.

The Shuffleboard at the Park has been prepared for waxing so it won't be long before people can use it.

Susanna Wesley Circle Met at Jefferies Home

The Susanna Wesley Circle of the Methodist Church met Monday evening, June 8th at the home of Mrs. Ann Jefferies with Luann Fales assisting. The new officers for the year are as follows: Chairman, Adeline Bowerman; Vice-Chairman, Virginia Vance; Sec. and Treas., Effie Weldy; Sunshine Chairman, Maxine Griffin.

After the business session a panel discussion under the direction of Mrs. Moore was held concerning "Youth Work in the Church."

A lovely lunch was served by our hostesses.

We adjourned to meet on July 13 at 12:30 for a potluck dinner and regular business meeting. The change to an afternoon meeting is made in order that members may attend the Annual School Meeting.

BAREFOOT BOY — MODERN VERSION

Blessings on thee, little man,
Barefoot boy with cheek of tan,
Trudging down a dusty lane
With no thought of future pain.
You're our one and only bet
To absorb the national debt!
Little man with cares so few,
We've got lots of faith in you.
Guard each merry whistled tune,
Your are apt to need it soon.
So have your pleasure while you can,
For you may be a barefoot man.

ATTENTION LEGIONNAIRES!

Regular meeting and annual election of Post Officers of Rebec Sweet No. 227, Tuesday, June 16.

All members are urged to attend this important meeting.

FARM FACTS from your County Agricultural Agent

By Ed Rebman, Co. Agr'l Agent

Farmers from all over this area will be circling in towards Kalkaska County on Wednesday, June 24th, for their last chance to attend an area Grass Day program, Ed Rebman, County Agr'l Agent said today.

This is the seventh year of the cooperative Grass Days between Michigan State College and local agricultural agents. There are seven o these profitable programs, marking this seventh and final year before moving into other types of pasture programs.

O. F. Walker, Kalkaska county agricultural agent and chairman for the area Grass Day program has extended invitations to all area farmers to visit this Grass Day. It will be on Wednesday, June 24th at the Jenkins' farm, located 3 miles South on road 66 and 2 miles east.

Tours will start at 9:30 in the morning on June 24th and will give visitors a chance to see some of the finest farm operations in the state. Seeding, fertilization and other practices will be discussed.

Visitors will be able to have lunch right on the farm and be able to make a daylong educational outing of Grass Day on June 24th.

After lunch, there will be an interview of the host farmers - Mr. Fay and Floyd Jenkins - by the host agent - O. F. Walker.

Farm machinery will be on exhibit and will be demonstrated in the field. Units will include forag harvesters, field balers, crop blowers, forage wagons, bale loaders and haycrushers.

Plan now to attend the area Grass Day on Wednesday, June 24th at the Jenkins' farm. You will see a silo being erected during the day. You will also see a liquid nitrogen demonstration.

June is the time to weed, water and wage war on bugs - - in your garden, says Charlevoix County Agricultural Agent Ed Rebman.

A gardner can't relax after most of his plot is planted or much of his spring labor may be wasted, he cautions. Rebman passes along these suggestions from H. L. R. Chapman, Michigan State College garden specialist:

Where water is available gardens should get a thorough soaking once a week. One good soaking is better than frequent light sprinklings.

Weed and thin at the same time. Most weeding can be done with a hoe. But don't chop. Sharpen the hoe and slide it along about one-half inch under the soil, slicing off the weeds. Carrots, beets and onions may need hand weeding. While you're doing this, you can thin the crops to stand one or two inches apart in the row. Swiss chard, to make the best plants, should be thinned to leave plants eight to 10 inches apart.

DDT will knock out the pesky, shiny black flea beetles that leave buckshot holes in cabbage, radish and beet leaves. Don't use the insecticide on edible parts of the plants, however. Cabbage worms can be controlled with rotenone. Through and frequent dusting with rotenone is the answer to controlling squash bugs as well as Mexican bean beetles.

Charlevoix county poultry raisers will get the latest information on the control of infectious bronchitis in their flocks at the annual Broiler Day at Michigan State College June 16.

County Agent Ed Rebman said one of the main speakers will be Dr. John Groves, assistant state veterinarian for the Michigan State Department of Agriculture. He will speak on "The Control of Infectious Bronchitis Under Michigan Conditions". Dr. C. H. Cunningham, M.S.C. bacteriologist, will describe research on the disease at the institution.

The session opens at 9:30 a.m. at the Union Building. J.M. (Mac) Moore, extension poultryman at M.S.C., said the topic for the day will be "The Health of the Broiler Flock".

Amer. Red Cross Authorized To Relay Messages Through Their Rapid Communication

Effective June 1, the American Red Cross has been authorized by the Departments of the Army and Air Force, to relay through their rapid communications, death messages involving immediate families of overseas servicemen of these two branches, Mrs. Don Haig, chairman of the Charlevoix county Red Cross chapter, has announced.

Formerly the Red Cross could send death messages to servicemen via these rapid facilities if leave for the serviceman, which the family requested, was denied.

Provision has also been made that all these death notifications contain complete information as to the time and cause of death, welfare of the remaining family, whether leave is being requested, and any other relevant facts. Whenever possible, the message is given in person to the serviceman by the Red Cross field director at his base, to help him meet the shock of the distressing news.

Since Nov. 1950 the Army and Air Force have allowed the transmittal of birth messages by rapid transit, but these messages do not have priority. The Navy makes its rapid communications system directly available to Navy, Marine and Coast Guard families sending emergency communications, as well as birth messages for its overseas personnel.

Reporting and communications service is a chapter responsibility of the American Red Cross. The Red Cross provides the link between servicemen and their families when regular communication facilities fail, helping re-establish direct contact, and to provide counsel whenever it is needed. Red Cross furnishes specific information when requested by the military.

To carry out this responsibility Red Cross Home Service maintains 24-hour coverage, this insuring prompt assistance with reports and requests for reports in urgent situations involving servicemen and their families.

It is pointed out that one of the most misunderstood phases of Red Cross is its inability to grant emergency leaves to servicemen. This prerogative rests solely with the military. When requested by a soldier's commanding officer to verify certain facts, the Red Cross can use its vast network of chapters and field directors to obtain necessary information, but the decision whether or not leave is to be granted must be made by the commanding officer.

Recent Army and Air Force rulings allow emergency leave to a serviceman whose wife or minor child has died if the family requests leave. For deaths of other members of his family, however, it must be established that additional problems exist in the home which only his presence can alleviate.

As part of its Home Service program, the Red Cross can also help establish the facts when there is serious illness in a serviceman's family and an emergency exists requiring his presence at home. This reporting service also covers emergency family situations requiring the serviceman to be home for more than the normal 30-day leave period, when he is requesting reassignment and deferment from overseas service, or discharge for dependency or hardship. In these latter situations, however, the serviceman himself normally must first apply.

In all these instances, however, actual disposition of the serviceman's request rest with military authorities. The Red Cross confines its activities to gathering, verifying and transmitting the necessary information.

The Dropped Gauntlet

BY ED LEHRBASS

The opinions expressed by Ed Lehrbass in this column are not to be construed necessarily, nor even probably as those of The Herald. They are only those of an experienced and responsible commentator.

Comes the time again, And here 'tis. Which brings to mind the story about the lad calling his dog, "here Touse." But those stories aren't usually printed so we'll have to drop it. Forget I mentioned it, folks.

"One hundred thousand dollars." That's a tidy sum. And I see by the Grand Rapids Press that our Charlevoix county road commission is spending that much on a few large projects. Gives me a chuckle how they go in a round about way to tell me those things. And the comments it brought, a lot of them unprintable, has kept me mighty busy listening.

One of the most interesting comments being, that we should all buy horses and horse drawn trailers that we might transport our very modern cars to the projected improvements, when they are completed, so we'll not miss using the new roads by breaking down before we get there.

Then another fellow retorted that we should travel over our usual roads so that we'll appreciate the new, when and if we get there.

One of the folks is thinking about getting the East Jordan businessmen to spansor him and his semi-trailer to transport vacationers from Pleasant Valley to the Ranney School. Said he'd go by way of Hogs-back road, so folks won't know that part of the hundred thousand dollars didn't go on "that" Charlevoix county road.

'Tis said that certain folks patrol that part of the road down in Pleasant Valley to make sure that no one puts a sign down there pointing out that as a way to East Jordan. Once vacationers travel that-a-way they'd never return.

The terrible storms down state brought this comment from a traveler who hails from that section. The government and all its scientists are telling us that those Atom explosions don't have a thing to do with the great changes in the weather which we've been having. But facts is facts. We've had the explosions and we've had a spell of unusual weather, with unusual storms. And we'll say that all those folks unfortunate enough to be in the path of the storm and lost their lives, didn't do so because of the recent Atom tests. But I'll bet we would all feel a lot better if the testing of the Atom bomb was done over he Kremlin in Moscow.

You folks'll recall that there was a time in the ago when I mentioned something about the community building being fixed up for the use of folks in their recreations. And also there was the bit about a town hall meeting being held where folks that had something on mind, could get up, say their piece, and if there was a difference of opinion, then that was the time to get it threshed out. Well, it don't look like it'll come into being that-a-way.

So my plan for the future is to hire some hall to give folks their first taste of a town hall meeting. If it don't work out, all I'm out is the cost of the hall. But should there be interested folks then perhaps they'll pay the cost for the second time. We'll just let the community building with it's great unused space set there and gather dust.

If any of you folks got the Detroit Times for last Sunday you'd find mentioned in their Pictorial Section, by a Bruce Barton, some thoughts about the many forms of statistics. You folks know that from time to time I get on the topic of economists and how their figures can be made to tell exactly what they want told. Well, this guy Barton, I don't think he reads my column, but he's welcome to for seven cents a week, 'really comes out with a down to earth message that makes you feel right inside. And it's sort of in line with my thinking about economists and their statistics.

A combination of large and small pieces is the most satisfactory assortment for a family washing. Small items in a single tub wash well, but a load of all sheets gives trouble. So put in some smaller pieces with the sheets and everything will move freely in the washer.

Your
hard-working helper
that costs so little

It's no easy job, running a household, with a hundred and one details to handle every day.

But you have a hard-working helper in your telephone.

It's always there, saving you minutes and steps, running errands for you, helping get things done. *Yet it costs so little—in the average home less each day than a loaf of bread.*

With all that it saves you in time, trouble and worry, your telephone is one of your biggest bargains. Its price hasn't gone up nearly as much as most things you buy.

Worth a lot more than it costs

WORLD'S BIGGEST FLAG—This is the inspiring sight that will greet visitors to downtown Detroit on Saturday, June 13, when the largest flag in the world is displayed by its owner, The J. L. Hudson Company. Measuring 235 feet long by 104 feet high, it towers seven stories. Each star is 5½ feet high and the stripes are eight feet wide. Fifty-five men will raise the flag, while color guards from the Army, Navy, Marine Corps and WAC stand at attention.

Michigan Mirror

"Weather co-operating, Michigan could be headed for the best tourist season ever," predicts Robert J. Furlong, executive secretary of Michigan Tourist Council. That's the office that shows people where and how to enjoy themselves in this "Water Wonderland" state.

More happy tourists in Michigan mean better livelihoods for resort owners and louder jangles of vacation dimes and dollars. Most of this, sooner or later, finds its way into the hands of Michigan retailers, wholesalers and manufacturers.

People are suprised to learn that tourist trade ranks among the top three industries in Michigan. Manufacturing is first. Agriculture and resorting come next, but most representatives of both fields are unwilling to state flatly which is second.

Surveys show that of 10 billion dollars spent yearly by Americans, well over $500 million (about 5 per cent) will be spent in Michigan. More than half by residents from outside the state who learn of sunny sands, deep forests and blue waters. Surveys also show that sightseeing is Michigan's biggest attraction. Mr. Furlong says that 70 per cent of people touring here include it in their program. "About 55 per cent go fishing," he added, explaining that nearly all tourists enjoy several different activities during their visits."

Michigan Tourist Council is a clearing house which attempts to co-ordinate all tourist promotion. The staff consists of only five hardworking people in Lansing, headed by Mr. Furlong, who has a conservation departtmen background. Administrative assistant is John Gray, who for five years has been speaking, photographing and writing about the glories of our state. The council works closely with Michigan's four existing regional associations: East, West, Southeastern and Upper Peninsula.

A sum of money appropriated each year by the Legislature, finances the Tourist Council. The state carefully designates how much of this shall be spent on promotion.

The remainder can be used for adminstration. In 1954 when the council was originated, $250,000 was appropriated. Recently it was increased to $296,000; this year it is $326,000.

Of this, $25,000 is credited to each regional office which must use if for advertising. Most of the balance is used for ads in national magazines and Michigan newspapers.

"A careful check is made of coupons returned from these ads," says Mr. Furlong, "so the council will know which are worthy." Coupon senders are asked to check the part of Michigan they want to visit; their names are referred to one of the four regional associations.

Thousands of beautifully printed booklets picturing advantages of Michigan vacations are distributed to interested people. Other publications about activities like canoeing, fishing and winter sports, are sent out daily.

Upon request art and information is available to writers or news commentators. Pictures of Michigan scenes are supplied for calendar or promotion pieces. Much material for a fine article in National Geographic was provided by the Tourist Council. It was called "'Work Hard—Play Hard Michigan" and must have applied to thousands of travel loving readers.

Long range tourist programs are also examined. At present several are under consideration. They include a plan to keep school open 12 months a year, giving classes and teachers vacations as long as at present, but staggered around the calendar. This will permit fuller use of schools and, incidentally, benefit the tourist trade.

Another idea is to encourage "off season" vacations in industry. This would permit the resort owner to use his facilities all year while more people could enjoy fall and winter sports or spring fishing.

The council supports Senator Don Vanderwerp's proposed law which would change all except religious holidays to Monday so that the public would have more play time every year.

More immediate concern is the matter of estimating tourist increase resulting from the proposed Mackinaw bridge. Mr. Furlong believes the bridge will be a terrific boon to travel. "It will be an attraction in itself as an engineering sight," he predicts. "Its convenience will permit the passage of many, many more people across the straits than were willing to wait for the ferries."

A "Know Your Michigan" week is already under consideration by several state agencies and when it comes into existance about a year from now, you can be sure that the Michigan Tourist Council had a hand in it's creation.

Nine men make up the Tourist Council. They are selected from various groups in the state's economy. First are the secretaries of Michigan's four regional tourist groups. The fields of transportation, press, agriculture, consumer sales and resorting are each represented. It's a job with no pay and no expence allowance, but six of the original members are still serving.

'Earl M. Johnson, Houghton Lake resort owner, is chairman. W. Webb McCall, former publisher of the Isabella County Times-News in Mt. Pleasant, is vice chairman. Other members are Lee Wilson Hutchins, Grand Rapids, president of the Hazeltine - Perkins Drug Co.; W. G. Armstrong, Niles, a member of the Board of Agriculture; George E. Bishop, Marquette, Upper Peninsula Development Bureau, Frank Davis, East Mishigan Tourist Association: Chester C. Wells, West Michigan Tourist Association; Robert W. Budd, president of Great Lakes Greyhound; J. Lee Barrett, Southeastern Michigan Tourist and Publicity Assiciation.

Michigan's tourist trade did not develop by accident. It is the result of favorable treatment by Mother Nature and the hard work of many people. Among these are the members and the staff of the Michigan Tourist Council.

Summer School To Begin At N. W. Michigan College

With two University of Michigan courses in modern literature now definitely scheduled, Northwestern Michigan College announced today final plans for the region's first summer school. Beginning June 22nd and running six weeks, the program is designed to fit educational needs of summer residents in the Grand Traverse area.

Community leaders hail this as the first step in establishing what could be one of the most appealing campuses in the Middle West.

College administrators hope that a favorable response to this initial session will point toward a more substantial teacher-training summer program in cooperation with other Michigan colleges. Summer workshops in crafts, music, art, writing, and other fields are cited as additional possibilities that could make the community a cultural center attractive to both permanent and seasonal residents.

As an experiment in a new type of extension work, Professor Edwin A. Engle of the University will conduct a "Contemporary Literature Program". Offering graduate as well as junior and senior year credit in two courses, "The Novel Since 1850", and "Modern Drama", these courses will meet from 3 to 5 and 7 to 9 respectively on Tuesday, Wednesdays, and Thursdays at the Public Library.

As previously announced Michigan State College is operating three courses granting both graduate and undergraduate credit. "Psychology of Elementary School Subjects," Mental Hygiene of the Sshool Child," and "National Government and Administration" will meet at the Airport Terminal Building.

Persons interested in credit work at the freshman and sophomore level may elect any of the following courses offered by Northwestern Michigan College:

Accounting, Office Machines, Typing (beginning and advanced), Slide Rule, Elementary College Algerba, Trigonometry, Social Science, Economic Geography, International Relations, and Fiction Writing.

The classes will meet at the Airport Terminal Building and are scheduled for morning, afternoons, and evenings to allow part time job holders to arrange convenient schedules.

Tuition rates are as follows:

University of Michigan — $10 per course for undergraduate credit; $20 for graduate credit.

Michigan State College — $20 for 1-5 hours of credit; $35 for 6-10 hours of credit.

Northwestern Michigan College — $4 per credit.

Further information regarding the summer session may be obtained by phoning the College, 3160.

Passing Cars On City Streets Is Dangerous

Chief Simmons called attention today to the fact that passing cars on city streets with parked cars and frequent intersections can be exceedingly dangerous.

He said, "There are not many conditions which justify passing on a city street where parked cars only allow one moving lane of traffic in each direction. The speed limit on most city streets is 25 miles per hour. If the car ahead is going 20 miles per hour, the difference in speed is only 5 miles per hour. To be able to go 5 miles per hour faster for a short trip will not save enough time to make it worth while to pass.

"Parked cars add a special hazard to passing, and hide pedestrians, especially children, who may thoughtlessly run out into the street. In many areas, the block lengths are not long enough to permit passing before reaching the intersection," he added.

All motorists are urged to cooperate with the traffic safety campaign under the leadership of State Highway Commissioner Charles M. Ziegler, and sponsored by the Michigan State Safty Commission, of which Ziegler is Chairman.

The Chief suggested the following safety tips to help motorists who wish to pass with safety:

(1) Be sure that there is no car close behind you which may try to pass you as you pull out.

(2) Make sure that there is no car right ahead of the car you are going to pass which might block you.

(3) Be certain that there is no oncoming car or, if there is one, that it is far enough away so that you have plenty of time to complete your pass before it arrives.

(4) Assure yourself that there is no intersection, driveway, or filling station entrance from which a car could come and interfere with your passing maneuver.

(5) When you are certain of cars behind you and in front of you, and of all entrances to the roadway, then pass rather quickly so that you do not have to stay on the wrong side of the roadway very long. It is recommended, that, when highway conditions and the speed limit permit safe passing, that you travel about 15 miles per hour faster than the car you are passing. Less than this will take you too long. More than this will make it harder for you to stop in time if an emergency develops.

Obey the official safety slogan "Keep in Lane - Don't be a Road Hog."

"You've already had leave, Ferguson, to see your wife off on a journey—for your mother-in-law's funeral—for your little girl's measles—your boy's christening—what is it now?"

"I'm going to get married, sir."
